

# BEST Inc Innovations

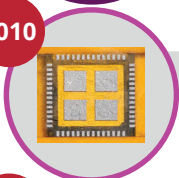

2008

## StencilQuik™

Fast BGA Placement and Mask Repair

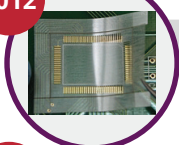

2010

## StencilMate™

Bumping stencils for QFNs

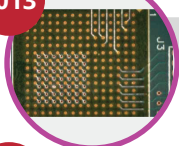

2012

## StikNPeel™

Fast, reliable rework stencil

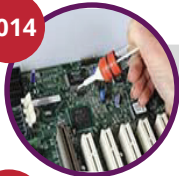

2013

## StencilMask™

Fast mask repair process

2014

## PCBVac™

Vacuums liquid and solids from PCB

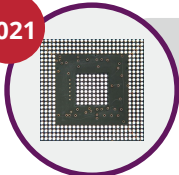

2018

## Automated Ball Placement

Increases operator efficiency

2021

## Cold Component Removal

Allows removal of components in heat sensitive situations

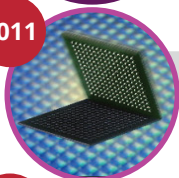

2009

## PCB Repair Tools

Full line of PCB Repair Tools

2011

## EZReball™

Simple to use reballing preform

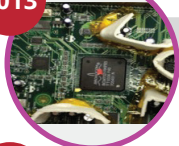

2012

## Metal Stencils

Full line of metal SMT stencils

2013

## HeatShields™

Protecting components from heat damage

2015

## HeatShieldGel™

Protecting components from heat damage

2019

## AOI of Components

Automated Optical Inspection ensures peak component placement and efficiencies
